LBS

The Honorable William J. Casey  
 Director  
 Central Intelligence Agency  
 Washington, D.C. 20505

Dear Bill:

I would like to have a member of the staff of this Committee cleared for SI/TK materials in accord with the provisions that have been in effect in the past. As you know, core staff of the Armed Services, Foreign Relations, Appropriations and Intelligence Committees are allocated SI/TK billets by the DCI. To my knowledge, this has not been done in the Labor Committee in the past because there has been no need to do so.

Since I have become Chairman, however, I have taken much more seriously the international issues under the jurisdiction of this committee. First, I attended the International Labor Organization annual conference in Geneva and have received classified briefings [redacted] I have also begun a review of the scientific exchange relationships the United States has with nearly 30 countries which falls under the jurisdiction of this Committee in its budget, authorization and oversight responsibility for the National Science Foundation. China, Russia, Egypt, Pakistan and India are some of the interesting scientific "partners" we have, in the vocabulary of the NSF, and I am reviewing this issue. Third, in the area of world health and international education, this Committee has considerable budgetary responsibility as part of its jurisdiction of the Department of Health and Human Services.

In all the above cases, the staff director of this Committee, Renn Patch and Dr. Michael Pillsbury, who is primarily responsible for these issues to me, have begun studies. They have attended the ILO annual conference, reviewed budget issues for the World Health Organization, met with science attaches and obtained DIA studies of unauthorized scientific and technology transfers to the USSR.

Dr. Pillsbury, who held SI/TK clearances on an INR billet from December 1980 to May 1981 and has held TS clearances since 1965, has been told that there is considerable background material contained in intelligence community publications that would be relevant to these

studies. Specific examples can be given in a classified letter, if need be. I would like to have both men cleared for such materials, if possible, but at a minimum Dr. Pillsbury who has, by the way, told me about
